CLEANLITES RECYCLING

LEADERS IN SUSTAINABILITY

Since 1994 Cleanlites has been committed to finding sustainable ways to help our customers recycle.

With \$10 Million of pollution liability insurance and numerous certifications and accolades, Cleanlites continues its mission of streamlining the waste stream to a closed-loop and sustainable system.

We hope you find this brochure helpful. As always, we encourage you to learn more by contacting us directly.

GREEN BUSINESS

Sustainability can save the environment without impacting your bottom line, we can help.

SUSTAINABLE RECYCLING

Safe, zero waste solutions for Electronics, Universal Waste, and much more.

BRAND MANAGEMENT

20+ years' experience in laws and regulations that your company can count on!

OUR SERVICES

DATA DESTRUCTION

Executives and CTOs trust us with their sensitive information and rely on us for certified, safe and reliable destruction.

Hard Drives, PHI, Data Tapes,
Microfilms

IT ASSET MANAGEMENT

Cleanlites partners with large organizations to grow sustainable IT asset life cycles, aiming for zero waste.

Computers, Peripherals,
Electronic Devices

UNIVERSAL WASTE

By partnering with private and public agencies we streamline the waste stream.

Lamps, Batteries, Ballasts,
Mercury Devices

GREEN CONSULTING

We will work with you to craft and source a sustainable waste management plan for any hard-to-recycle items.

Waste Consulting, Waste to Energy,
Renewable Energies

STREAMLINE YOUR WASTE STREAM

For over two decades, we have integrated an approach to improve waste management services throughout all sectors of the economy and the community.

eWASTE RECYCLING

Electronics are a fast-growing waste stream. We work to keep those materials out of the landfill and in a clean cycle.

Computers, CRTs, Cell Phones,
Appliances, Consumer Electronics

HAZARDOUS WASTE

We recycle a variety of hazardous materials and maintain all the proper certifications and permits.

Mercury, Paints, Aerosols,
PCBs, Leaded Glass

RETAIL RECYCLING

Nationwide retail chains rely on us for logistics and training in recycling a wide variety of materials.

Household Products, Training,
Nationwide Logistics

PRODUCT RECALLS

Surplus or recalled items can often be recycled. We work with some of the most recognizable brands to make it a reality.

Retail Items, Industrial
Equipment, Automotive

PROBLEM SOLVING

As a sustainability company, our goal is to provide unique solutions to difficult problems. We approach problems not only from the perspective of financial viability but also longevity and environmental impact.

CIRCULAR ECONOMY

LINEAR ECONOMY

We aim to be an integral part of a circular economy system. By continuing to work with public and private stakeholders, we strive to make circular economies affordable, efficient and universal.

INDUSTRIES WE SERVE

Government Solutions

We work closely with countless public agencies to reduce waste and increase sustainability.

Healthcare Solutions

We partner with medical facilities to recycle their vast and complex waste streams.

Manufacturers

From recalls to surplus, we are committed to diverting factory waste away from landfills.

Auto Industries

Our auto partners rely on us to recycle items such as airbags, seat belt pre-tensioners and consoles.

WE PUT THE "ECO" IN ECONOMY

As Cleanlites continues to expand and diversify, we are able to offer a variety of sustainability services to a dynamic economy and are focused on integrating solutions throughout the public and private ecosystems.

Corporate Solutions

Numerous Fortune 500 enterprises trust us to handle their waste streams and provide nationwide services.

Electrical Companies

We work closely to help with retrofits, demolitions and construction projects.

Retail Recycling

Retail industries rely on us to manage daily waste streams nationwide.

Power & Energy

Solar panels, generators, and industrial equipment; we find sustainable waste solutions for all equipment.

THE RECYCLING PROCESS

Raw Materials

We find sustainable solutions for a wide variety of products. Below are some of the most common materials we handle at our facilities.

Metals

Sorted with state-of-the-art optical technology and sent downstream.

Circuit Boards

Separated, bundled and safely reclaimed for their precious metal value.

Plastics

Plastics are sorted by type, cleaned and sent downstream.

Glass

Sorted by type and sent downstream for reuse in many of applications.

Wire

Isolated, separated and processed by type i.e. metal, plastic rubber.

Cardboard

Paper and cardboard are aggregated, baled and sent in bulk for reuse.

A worker wearing a white hard hat, safety glasses, and a respirator mask is shown in profile, working with a yellow piece of machinery. The worker is wearing a grey long-sleeved shirt and black gloves. The background is dark and industrial.

PROCESSING FLOW CHART

1. Transportation

Items are packaged according to EPA & DOT regulations and then transported to a Cleanlites Facility using the Cleanlites fleet or an approved carrier.

2. Storage

Storage and safety are a top priority. Upon arrival, items are weighed, counted, scanned and segregated by type for storage.

3. Sorting

Using advanced technology and technicians, materials are initially separated into varying sub-categories before processing.

4. Processing

Using high-tech machinery and technical expertise, items are broken down and sorted efficiently and effectively into their raw materials.

5. Downstream

Items are sent to approved and audited vendors for additional processing and eventually recycled into the raw materials ecosystem.

Committed to
Zero Waste

A green circular logo with three arrows forming a triangle inside, representing a recycling or zero-waste cycle.

CERTIFICATIONS & SAFETY

\$10 MILLION INSURANCE

Cleanlites takes liability seriously. We carry \$10M in pollution liability insurance and an additional \$3M in cyber insurance. This keeps us accountable and keeps your brand safe.

R2 RIOS CERTIFICATION

This is regarded as a crucial certification for safety, management and practices in the waste industry. We work year-round to go beyond these strict requirements.

HIPAA CERTIFIED

Working with sensitive data is no new task for Cleanlites. We are certified to destroy sensitive data containing devices from hospitals, governments or corporate entities.

Protecting Your Brand Protecting Our Environment

THE IMPORTANCE OF SAFE FACILITIES

We work tirelessly to keep our business safe and certified. We maintain several Environmental Health and Safety staff to make constant improvements and keep employees trained and safe and to keep our facilities up to the latest and most comprehensive standards.

OUR CERTIFICATIONS (some of them)

R2 RESPONSIBLE RECYCLING CERTIFICATE • RIOS CERTIFICATION • PART B FACILITY CERTIFICATION •
HAZ MAT CERTIFICATE • MOTOR CARRIER SAFETY • DEFENSE LOGISTICS APPROVED CONTRACTOR •
MDEQ AIR QUALITY • MDEQ WASTE MANAGEMENT • MDEQ REGULATED WASTE • MDEQ STORMWATER PERMIT •
EPA NOTIFICATIONS OF PCB ACTIVITY • EPA CERCLA APPROVAL • MDEQ EWASTE RECYCLER REGISTRATION •
EPA TSCA PCB COMMERCIAL STORAGE APPROVAL • MN PCA ELECTRONICS RECYCLER REGISTRANT •
DAKOTA COUNTY HAZARDOUS WASTE FACILITY LICENSE • MN PCA EWASTE RECYCLING PERMIT •
OH EPA AIR POLLUTION PERMIT • OH EPA NOTIFICATION OF PCB ACTIVITY • EPA CERCLA APPROVAL •
PART B HAZARDOUS WASTE FACILITY • OH EPA NPDES STORMWATER NO EXPOSURE CERTIFICATION •
SC DHEC STORM WATER GENERAL PERMIT • SC DHEC AIR QUALITY OPERATING PERMIT •
EPA NOTIFICATION OF PCB ACTIVITY • NOTIFICATION OF REGULATED WASTE • EPA CERCLA APPROVED •
LEAD ACID BATTERY REGISTRATION • HAZARDOUS WASTE TRANSPORTER LICENSES (15 STATES) •
SATISFACTORY MOTOR CARRIER SAFETY RATING

INNOVATION & TECHNOLOGY

IMPROVING EVERY DAY

We are here to streamline your wastestreams. That means we are dedicated not only to existing operations, but to research, development and expansion of our services and facilities.

We have worked across the board with the EPA, think tanks and corporate partners to develop dozens of proprietary disposal methods. From our state-of-the-art shredding/sorting system, to our one-of-a-kind electronic airbag deactivation system- our goal is continuous improvement and to become a streamlined solution for sustainable waste management.

RESEARCH & DEVELOPMENT

Partnering with research labs and stakeholders, we are aiming to achieve a zero waste economy and more efficient ways to recycle.

GRANT FUNDING

With over \$2 Million in grant funding, we work with the sustainability community to acquire knowledge and technology, while investing in a green workforce.

NEW WASTESTREAMS

We are dedicated to leading the way in future waste streams. From automotive airbags to solar panels we continue to push the envelope and blaze new trails.

ADDITIONAL SERVICES

MAILBACK RECYCLING PROGRAMS

Using eCommerce innovation and a series of advanced web tools, recycling has never been closer to your fingertips. Simply create an online account and get a birds-eye view with metrics, parent-child accounts and customized recycling reports.

Learn More at www.LampMaster.com

DATA DESTRUCTION

We specialize in sensitive items and IT Asset Disposition (ITAD). With clients like Defense Contractors and the US Government, Cleanlites is a trusted name: safe, certified and discreet.

As we continue to grow, our portfolio of options does too. We continually innovate in the marketplace to create new services to meet changing demands. See a complete list at www.Cleanlites.com

HARD-TO-RECYCLE ITEMS

Industries are just now beginning to consider end-of-life as part of the complete product life cycle. We work with all types of manufacturers to find sustainable avenues for disposal and recycling.

EVENT RECYCLING

Partnering with our communities and our municipalities is one of the most rewarding things we do as a sustainability company. We partner with organizations to help engage, recycle, and educate.

CUSTOMIZED RECYCLING SOLUTIONS

With 40+ years of combined experience and by utilizing our connections within the sustainability community, our team has created dozens of new completely customized wastestream diversion plans for any variety of item you can imagine.

ADDITIONAL SERVICES

Some of our services have been uniquely tailored to specific customers. Being a family-owned company helps us stay dynamic and diverse. Our goal is to be one-stop shop for waste sustainable waste management. Don't see the service you're looking for? See a complete list at www.Cleanlites.com.

RENEWABLE ENERGY RECYCLING

As the world rethinks its energy services, it is also time to rethink the product life cycle of energy infrastructure. We offer solar energy recycling solutions across the United States and continue to develop proprietary methods for efficient recycling alongside partners at research labs, the Department of Energy and our own R&D Recycling facility.

TRANSPORTATION

Cleanlites has full-time staff dedicated to affordable and certified transportation solutions. Our Cleanlites fleet and partners provide coverage across the country.

WASTE TO ENERGY

As we grow our company, we also strive to reduce our own carbon footprint. We are currently developing ways to harness our clients' waste to power our operations.

HAZARDOUS MATERIALS

Some items require specialized transportation, handling and disposal to assure harmful chemicals do not permeate our environment. Cleanlites' expert staff has you covered

MEDICAL RECYCLING

We work with hospital networks to reduce their landfill waste. We have developed and integrated services to recycle medical plastics, batteries, machinery and protected health information.

PUBLIC PARTNERSHIPS

The recycling industry is still learning and growing. That is why we constantly collaborate with non-profits, research laboratories and scientists in the field to find better ways to recycle, secure grant funding, and share important data.

OUR LOCATIONS

Our locations are strategically placed throughout the continental United States to service our whole family of clients. For more information on our locations and our continuing expansion plans visit www.cleanlites.com

WHAT WE RECYCLE

Often times we are asked "can you recycle that?" and most of the time, the answer is "yes!" We have worked for over 20 years to diversify our throughput and our processes, with the goal of becoming a one-stop shop for all waste recycling.

CLEANLITES RECYCLING

STREAMLINE YOUR WASTESTREAM

ENTERPRISE SOLUTIONS

Recycling solutions for your business. We cover logistics, waste stream management, and compliance. With 25+ years of experience, we create solutions for you.

CERTIFIED & SAFE

With \$10 Million of pollution liability insurance and R2 / NAID certifications, Cleanlites maintains an open door policy and is committed to transparency and honesty as well as safety.

DEDICATED SERVICE

Over the past few decades we have expanded our sustainability network and grown our green business. As a family owned business, you not only get experience, you get dedication.
